

SALTERA
TRAINING
PRACTICAL QUALIFICATIONS

Industry-leading training and on-site learning for the real world, which evolves with industry shifts. That's our commitment, our vision.

CAPABILITIES STATEMENT

SALTERA GROUP OVERVIEW

Established in 1999, Saltera Group, trading as Saltera Training is one of Queensland's most established Registered Training Organisations.

We believe that our genuine customer service and client centric delivery focus is the credit to our success.

At Saltera Training, our students are provided with the guidance and stability that we believe in, which serves as a platform for esteem-building that helps set young people on the right path towards developing and achieving their goals.

Each and every student will find a level of kindness and understanding not commonly found at our industry competitors. To ensure we uphold our values we hand-select our trainers with these traits front and centre.

THE SALTERA TRAINING DIFFERENCE

To us *Being Different* is what matters most. Saltera business operations and developments are derived from student experiences and client feedback.

We take into account each of our students learning experiences and take action against recommendations where appropriate. Recently we have opted to have an online delivery model available, this was recommended to better suit our students learning styles.

In addition to this, our business model allows our clients and students to have contact with each member of the Saltera TrainingTeam to ensure any issues they may have can be addressed in a timely manner.

FUNDING OFFERINGS

Under the Department of Education, Small Business, and Training, Saltera Training is a registered training organisation accredited with User Choice Funding.

This government funded program provides a contribution towards the costs of training and assessment services for all eligible apprentices and trainees in the transport and logistics industry.

Recognising the shortages in employment based training, the Queensland Government is assisting RTO's by prioritising the alignment of funding to the skills and industries in need as they respond to the changing demands of the job market.

FEATURED PARTNERS

Our success in delivering training to the highest quality is a credit to the development of the great partnerships we have amongst our network.

Each individual **apprentice** that is enrolled with Saltera Training has support from their AASN (Australian Apprenticeship Support Network) partner. Our choice partners are industry experts and great at ensuring each individual is placed in the environment suitable to their learning needs and capabilities.

Trainees that choose to study with Saltera Training will have their placement employer, the AASN and Trainer/ Assessor assigned to their class for the duration of their studies.

COURSE SUMMARY
